Contemporary Design / Sun / Shade / Rain /
Temperature Control**

A NEW ERA OF OUTDOOR CLIMATE CONTROL

The D'cent Roof Opening Roof is redefining Commercial and Residential outdoor living and dining areas. A unique system that provides variable shading, light, and protection from the rain.

WHO BENEFITS?

Residential, Commercial and hospitality sectors are enjoying the many applications of the Opening Roof. Take advantage of your outdoor space.

RESIDENTIAL

- ❖ Extend outdoor living space
- ❖ Patios, pool areas & courtyards
- ❖ Rooftop Structures
- ❖ High Rise Balcony Covers

COMMERCIAL

- ❖ Restaurants : Increase profits with year round outdoor dining.
- ❖ Office buildings: outdoor community areas
- ❖ Shade Canopies

HOSPITALITY

- ❖ Poolside shade cabanas
- ❖ Guest dining areas
- ❖ Rooftop shade, pergolas.

RAIN PROTECTION

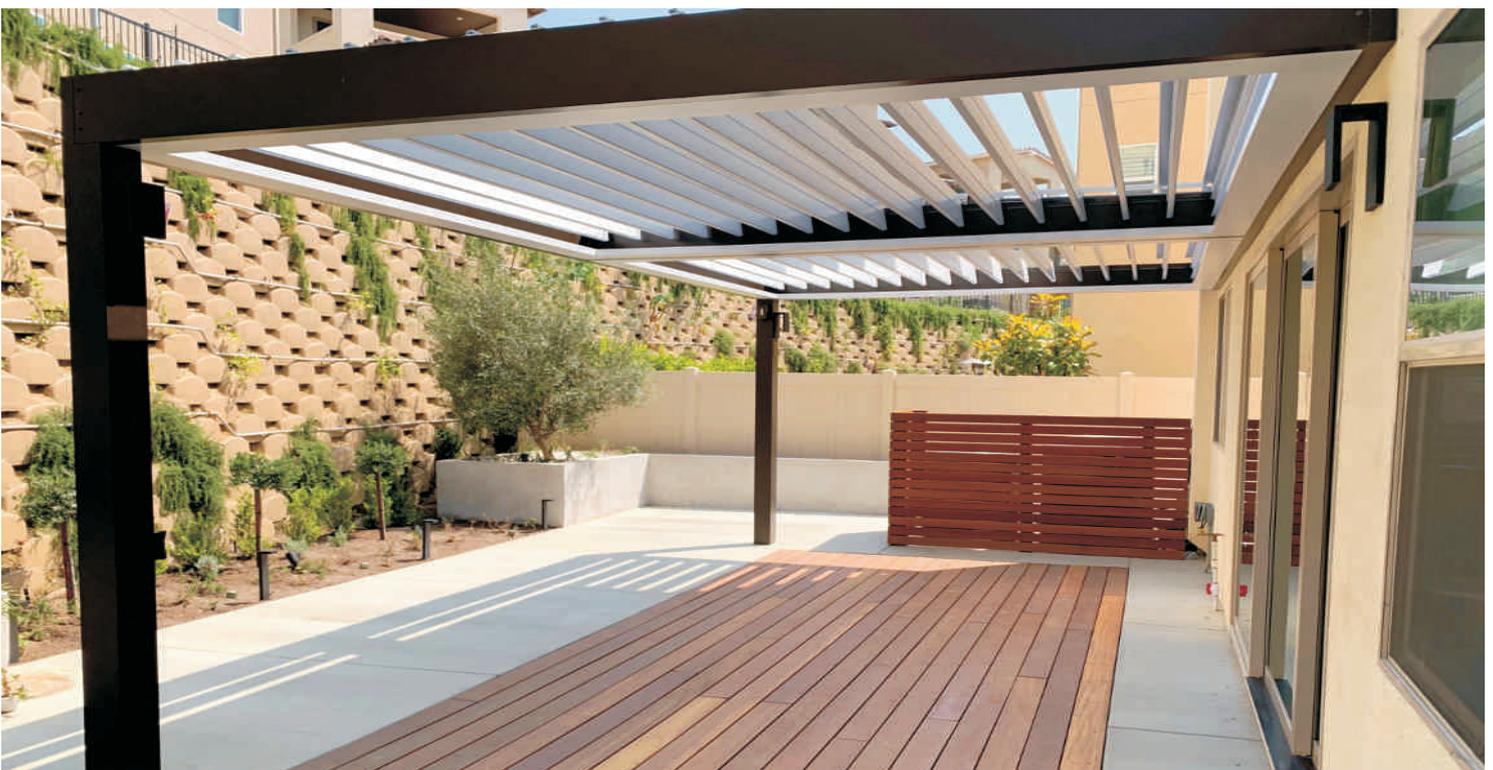

The Interlocking Louver System Provides protection from the rain, channeling water into the full perimeter gutter system

SOLAR CONTROL = ENERGY SAVINGS

D'cent Roof Louvers articulate in any direction for maximum comfort. Light and sun for solar heat gain, or energy saving shade

MS FRAME

The D'cent Roof extruded MS frame system offers the appearance and structural integrity desired architects and professionals

TIMELESS BEAUTY

D'cent Roof louvers & components are available in standard colours as well as an endless array of finishes that will compliment any architectural design. When fully closed the louvers provide the elegant look.

DESIGN & ENGINEERING

From rooftop restaurants to poolside patios, the designers at D'cent Roof are ready to work with you. We develop construction documents which include connection details and site specific engineering

VIRTUALLY MAINTENANCE FREE

High quality D'cent Roof finishes eliminate time consuming painting, staining, and waterproofing. Aircraft grade aluminum components prevent warping, cracking, and deformation.

You can finally have that covered deck without sacrificing light into your home. Close the roof and have the shade on the hot summer days. Open the roof and let the light shine in on cloudy and cold winter days. The D'cent Roof louvered roof enhances the value of your home while you spend more time outside with family and friends. Instantly adjust the louvers for added sunlight or shade and protection over your swimming pool, deck, hot tub, BBQ and lounge area

D'cent Roof's patented louvered system gives you the ultimate control and flexibility. You no longer have to choose full cover or partial cover

It can be install at the parapet of cutout, using the parapet, only louvers can be visible from down

You can have it all. Wherever you want. whatever your current mood desires. And you'll never worry about your patio (and expensive furniture) getting wet again. Because it can be install at face of the walls & top of the parapet also, and drainage pipe can be adjusted with your plan.

Open the roof and let the light shine in on cloudy and cold winter days at you Jacuzzi or hot/coldpool.

The D'cent Roof louvered roof enhances the value of your home while you spend more time outside with family and friends. Instantly adjust the louvers for added sunlight or shade and protection over your swimming pool, deck, hot tub, BBQ and lounge area.

The louvers are operated by a hand-held remote. Open the louvers slightly to increase ventilation, or a full 180 degree allowing maximum sunlight into your Jacuzzi. Your new Jacuzzi roof has the stylish look and feel of a traditional pergola with the benefits of a fully adjustable louvered system.

Having toughened glass along with D'cent Roof Louvers allow you to get the natural light 24/7 and ventilation with the louvers

We can design you patio, courtyard, portico along with glass roof.

Imagine a durable, versatile and attractive louvers. One that delivers shade on hot days, protects your family from harmful UV rays and keeps your deck, swimming pool, hot tub and outdoor furniture dry during a rainstorm. Our D'cent Roof louvered roof greatly improves most any residential or commercial outdoor space.

**DESIGN YOUR BACKYARD WITH D'CEN
T ROOF**

D'CEN Louver Roof is the premier architectural Louver roof system, preferred by architects and designers for its contemporary aluminium structure, impressive scales and high levels of protection from the elements

CANTILEVER DESIGN

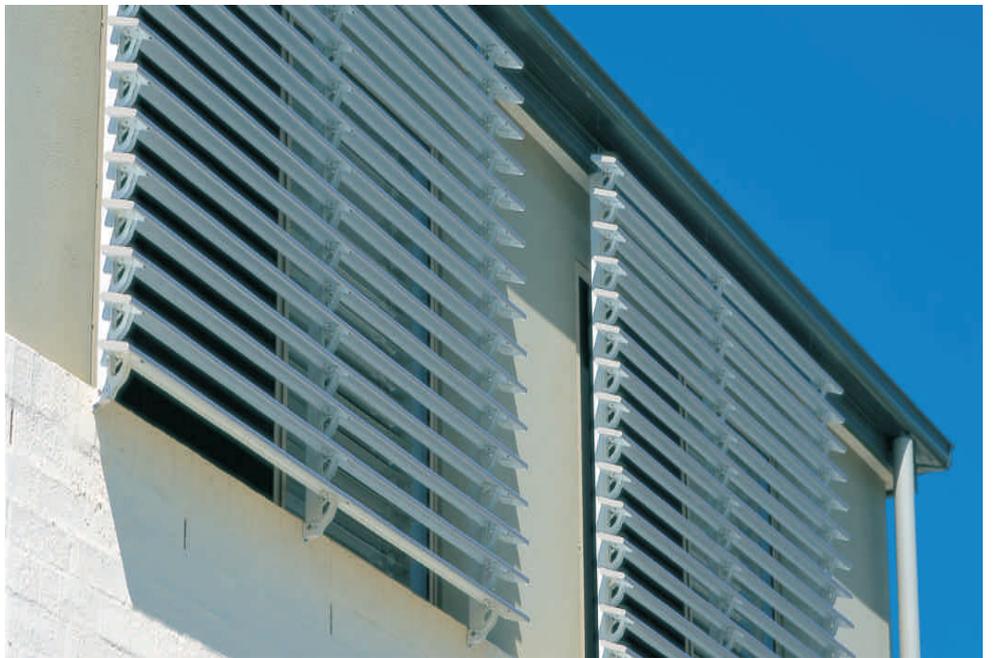

D'CENT Louver Roof allow you to more space for your dining area, with support any column up to 7- 8 feet, so without any blockage of your valuable space.

Have fun and enjoy D'cent Louvered Roof.

**Control the sunlight with
D'cent vertical louver system**

Now, control the sunlight during sunny season and your privacy with security with a simple flick of a switch or remote.

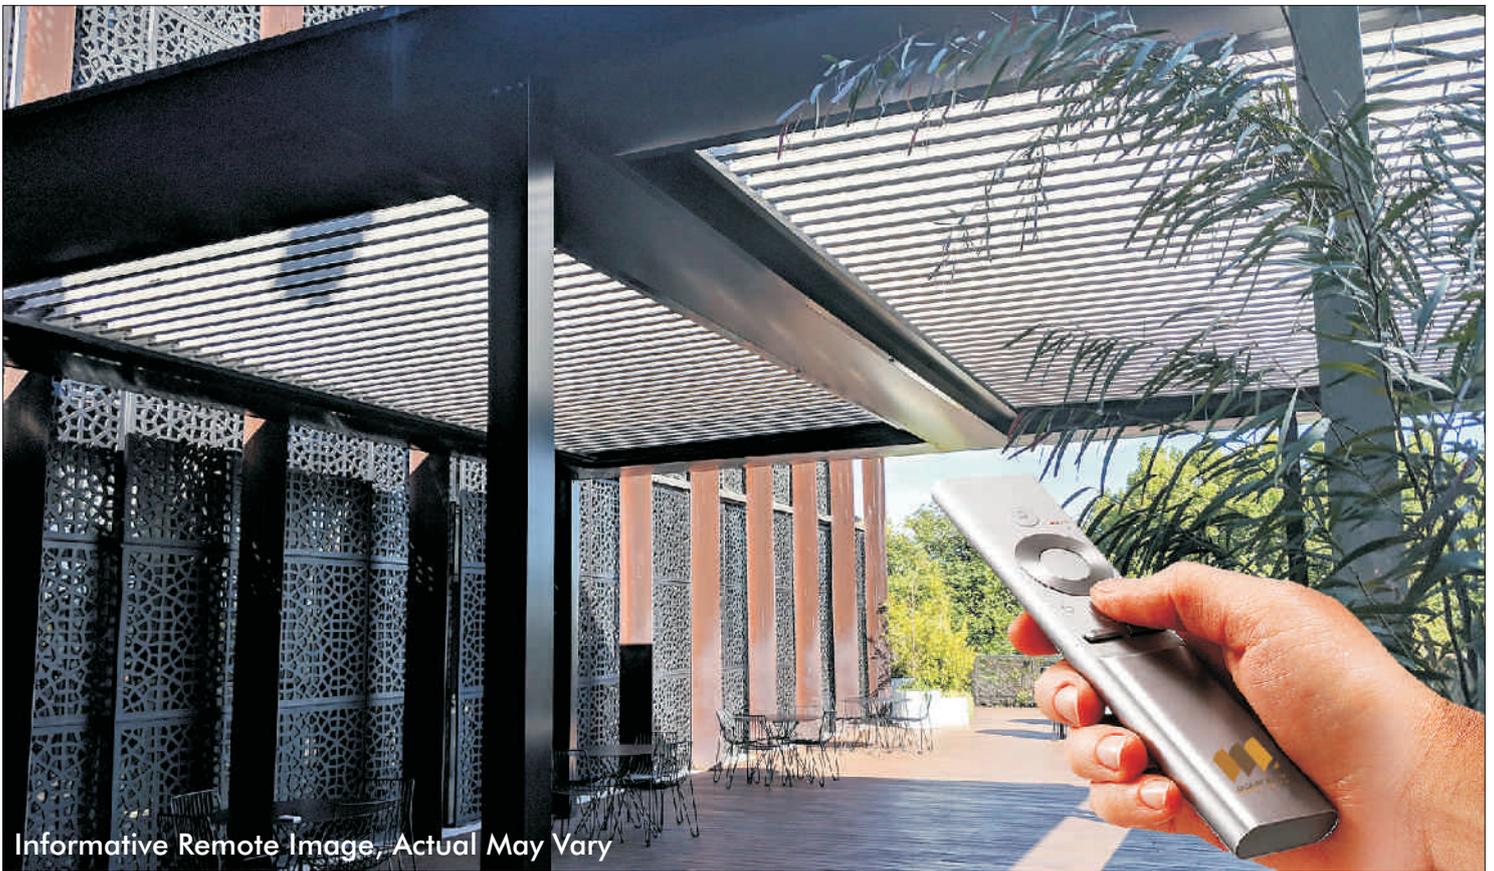

Increasing your seating capacity and driving up revenues.

Enjoy 24/7 Natural beauty from your balcony
